

# SIMMARIX Data Warehouse

Simmarix has the ability to gather data from your meters; water, gas or electric, in intervals of 1, 5, 15, 30 or 60 minutes. This data can also be provided by the customer to Simmarix, and Simmarix will store the data on a server. The data will be held for a minimum of two years. Storage times can be increased at the customers request.
